REASONS FOR ALLOWANCE

1. Claims 11-26 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's arguments filed on 4/13/07 (see page 6) are persuasive as to the point that the cited prior art fails to teach a process of producing a micromechanical oscillating mirror device including the steps of deep etching the first trench using a second anisotropic plasma etching step starting from the bottom of the trench and extending the trench to a predetermined depth of the silicon substrate layer, "which the second anisotropic plasma etching step specifies the depth of the sacrificial layer" and then performing an isotropic etching the sacrificial layer to remove a region of the sacrificial layer below the island region by lateral etching undercutting of the silicon substrate as the context of claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
